Information on the DOC Website is updated on week days at 4 pm, to see more information on DOC testing visit their website:

Dodge County Public Health Unit does not provide follow-up to "persons under care of corrections." We are not aware of certain data/statistics that we track for the community positives that is shared with the public, therefore these positives are not included in some statistics in this report which is noted in those areas.

DODGE COUNTY SAFE RESTART

**RELEASED
MAY 22, 2020**

Visit our website under the **Coronavirus Information > Dodge County Safe Restart** tab and click the link: **"Dodge County Safe Restart Guidelines and Recommendations for Action"** to read the full plan.

A measured, phased-in approach that utilizes data-driven benchmark criteria and aligns with federal and state metrics has been developed to guide Dodge County decision making.

Effective May 22, Dodge County will be in Phase One of the Dodge County Safe Restart:

- Businesses that choose to open may do so using the general best practice guidelines from the Wisconsin Economic Development Corporation (WEDC) and any sector specific recommendations that apply to the work being done. If your sector is not included the CDC has additional resources for sectors/organizations to reference.
- Limit capacity within non-essential businesses, bars, restaurants and organizations to 25%.
- Events held outdoors should allow for all people to maintain 6 feet physical distance (36 square feet per person) from others.
- People age 65 or older and those who are medically vulnerable should continue to limit travel and remain at home as much as possible.
- Support online education/remote work options as able.
- Encourage curbside pick-up to reduce in-store traffic and long lines.
- If community members choose to gather socially, private indoor social gatherings should be limited to 10 people or less with physical distancing.
- Encourage masking for both staff and consumers.

Weekly Benchmark Criteria Scorecard:

Updated 5/29/2020

Phase: ONE

May 29, 2020

Dodge County Benchmark Criteria

Indicator	Metric	Status
Cases	Downward trajectory of positive cases of COVID-19 as a percentage of total tests.	✓
Testing	Testing availability for all residents with COVID-like symptoms, with priority toward vulnerable populations.	✓
Care	Hospitals have ability to treat all patients requiring hospitalization without resorting to crisis standards.	✓
PPE	Adequate PPE available to health care personnel.	✓
Tracing	Every resident who tests positive for COVID-19 is interviewed within 24 hours of test results. COVID positive contacts are interviewed within 48 hours of test results.	✓
